# Varklin® Urinal Blocks

## FEATURES

## PRODUCT DESCRIPTION

Varklin® Urinal Blocks have been specially formulated to reduce odour problems and blockages in urinals. Contains odour neutralising perfumes, advanced enzymes, bacterial cultures and biological inhibitors that enhance the cleaning efficacy and help to remove fats, scale and solids that build up in urinal traps and pipe work, causing odours and blockages.

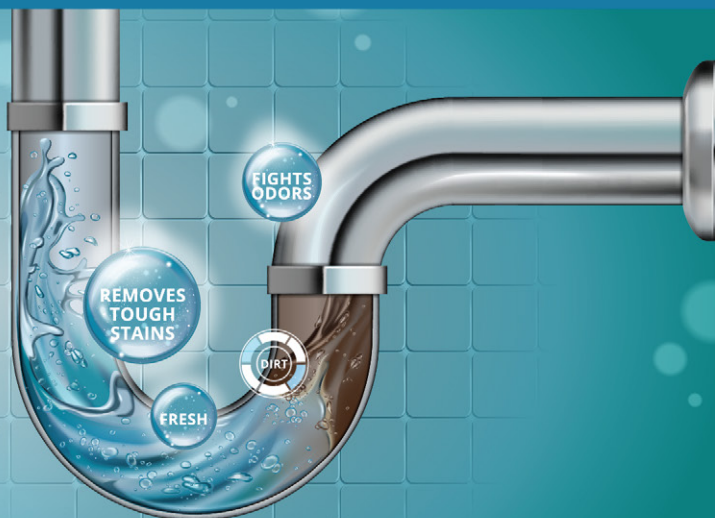

Highly perfumed and water soluble, Varklin® Urinal Blocks efficiently eradicate the source of this problem, providing substantial savings on both washroom maintenance and water bills, as the need for constant flushing and more regular cleaning is reduced.

Superior to conventional products like urinal screens & urinal cubes. As compared to screens Varkling Bio Blocks contain a higher dose of fragrance that genuinely lasts & has additional benefits like removing odor from the source, and preventing scale deposition in pipes. Compared to urinal cubes it has a higher dose of fragrance and does not contain harmful chemicals like PDCB.

# Varklin® Toilet Blocks

## PERFECT FOR TOILETS

### PRODUCT FEATURES

- In-Cistern toilet cleaner blocks
- Prevents the build-up of stains
- Cleans with every flush
- Touch free and hygienic
- Safe for use with septic tanks and all other toilet cleaners

### USAGE INFORMATION

1. Remove block from blister
  2. Do not remove the cloth
  3. Drop block into cistern but away from water inlet
  4. To activate, wait for 10 minutes before the first flush
- \*Always use Varklin blocks separately. Do not mix with other products.

## PRODUCT DESCRIPTION

Varklin® In-Cistern Toilet Cleaner Block is a drop-in tank tablet which can be used for any accessible cistern. It works from inside the cistern to release a dose of powerful detergent with every flush, it helps you maintain a hygienic and deodorized toilet and prevents the build-up of stains giving you a continuous clean toilet. Our in-cistern cleaner block is a toilet hygiene product for continuous cleaning without any mess. It is a touch free method of cleaning that dissolves completely when finished, without leaving any residue. A single block lasts up to a month depending upon individual usage. Also, it lets you know when it needs replacing as the colour of the flushed water starts to fade. To keep the freshness going replace it with a new Varklin® In-Cistern Toilet Cleaner Block as soon as the colour starts to fade. Varklin® Toilet Cleaner Blocks are safe to be used with septic tanks and all other toilet cleaners.
